

GOMPELS PREMIUM LAUNDRY SYSTEM

gompels
healthcare
www.gompels.co.uk

Here at Gompels HealthCare Ltd we have been working hard to develop a range of four high performance laundry products formulated for outstanding cleaning at low temperatures. The products have been developed to be as effective as the sector leading brands, but without the premium prices.

Laundry Detergent
71726

Fabric Softener
82628

Stain Remover
23764

Bactisan
65866

How does the premium range save you money?

- Autodosing system fitted via a one off charge that covers the cost of the system and the installation, training.
- No expensive tie in to branded products; same high quality performance without the branded premium.
- Wall mounted pump system dispenses the correct dose of a product straight from the container into the machine; no waste of product from inconsistent human dosing error.
- Autodosing system can be paid for in as little as six months in high volume laundry rooms.

Is Our Premium Laundry System For You?

- Do you utilise a commercial washing machine?
- Do you need anti-microbial action?
- Are you seeking to control your laundry expense?
- Is rewashing or replaced linen a concern for you?
- Does your laundry exceed 500kg per week?

If you answered 'Yes' to any of the above questions then our premium laundry range is for you.

Impress Your Service Users...

- Superb softness
- Disinfects (including MRSA) at 40°C and below
- Stain removal on colours
- Tough stains consistently removed
- Linen rewash becomes a thing of the past
- Towels do not end up scratchy
- Fabrics don't degrade through harsh chemical exposure
- Stubborn stains removed first time

Reduce Your Bottom Line...

- Save on linen replacement due to superior formulation
- Drastically reduce staff time lost on rewashing
- Lower temperature washes means lower energy costs
- Consistent dosing minimises clogging and reduces machine maintenance
