# HOW TO MAKE

## Egyptian pyramid

### instructions

1. Cut along the solid lines.
2. If you want to add details to your pyramid, now is the time to add them.
3. Fold along the dotted lines, flip the pyramid over and fold again the other way (so the markings are hidden once constructed).
4. Glue along the fold tabs one at a time and stick each fold to its matching letter, for example fold tab A sticks to 'A' etc. until all sides are stuck and your pyramid is complete.
