## 9. PHYSICAL AND CHEMICAL PROPERTIES

- |                      |                           |
|----------------------|---------------------------|
| Appearance :         | Original - White soap bar |
| Odour :              | Characteristic to product |
| pH Value (5g/l) :    | Approx. 10                |
| Boiling Point:       | N/A                       |
| Vapour Pressure:     | N/A                       |
| Solubility in water: | Moderately                |
| Melting Point:       | N/A                       |
| Evaporation Rate:    | N/A                       |

## 10. STABILITY AND REACTIVITY

- Product is stable with no known hazardous reactions.

## 11. TOXICOLOGICAL INFORMATION

- No toxicological data determined.

**12. ECOLOGICAL INFORMATION**

- Biodegradation:
- Expected to be biodegradable. Product is based on naturally occurring fatty acid, no environmental problems are expected.

**13. DISPOSAL CONSIDERATIONS**

- For small amounts of product, dilute with copious quantities of water and run to waste (observing Local Authority regulations).
- For larger quantities dispose of at a suitable landfill installation.

**14. TRANSPORT INFORMATION**

Not classified as hazardous for transport.

**15. REGULATORY INFORMATION**

- The product has been assessed according to the Cosmetic Products (Safety) Regulations 2003 and is not classified as hazardous.

**16. OTHER INFORMATION****EU Ingredient Listing:**

(According to CTPA and Cosmetics Products (Safety) Regulations 2003 and subsequent amendments)

Sodium Tallowate, Sodium Palmate, Sodium Palm Kernelate, Aqua, Glycerin, Parfum, Sodium Chloride, Disodium Phosphate, Tetrasodium Etidronate, Cetyl Alcohol, Petrolatum, Mineral Oil, Pentasodium Pentetate, Benzyl Salicylate, Geraniol, Hexyl Cinnamal, Isoeugenol, Butylphenyl Methylpropional, Linalool, CI 77891
