Other Information All reasonable care has been taken to ensure information and advice contained in this data sheet is accurate at time of printing. However, Orion accepts no liability for any loss or damages suffered as a consequence of reliance on the information contained herein.

2. Hazards Identification

Hazard Classification This product is not hazardous or dangerous

3. Composition/Information on Ingredients

Chemical Entity	CAS No:	Proportion
Zinc Oxide	1314-13-2	≤ 10% w/v
Castor Oil	8001-79-4	30 - 60% w/v
Cetostearyl Alcohol	8005-44-5	≤ 10% w/v
Beeswax White	8012-89-3	≤ 10% w/v
Peanut Oil (Arachis Oil)	8002-03-7	30 - 60% w/v

4. First Aid Measures

Inhalation: Not considered to be harmful.

Ingestion: May have a laxative effect. Contact a doctor or Poisons Information Centre (Australia 13 11 26).

Skin: If skin irritation occurs, remove excess and wash area well with water. Pat dry.

Eye: If applied to eyes, remove with a soft, clean swab. Hold eyes open, flood with running water for fifteen minutes.

Advice to Doctor: Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media	Water jet/fog, dry chemical agents, alcohol stable foam.
Hazards from Combustion products	On combustion, may produce oxides of carbon.
Precautions & Equipment for Fire Fighters	Slight fire hazard when exposed to flame. Fire fighters should wear full protective clothing and self-contained breathing apparatus with full face shield.
Hazchem Code	None allocated

6. Accidental Release Measure

Using a suitable scoop remove bulk to waste. Waste material may be incinerated under controlled conditions where permitted. Refer to local Waste Management Authority Regulations for other approved methods. Clean up area with (hot) water and detergent. Note that spillage will become slippery.

7. Handling and Storage

Safe Handling Practices	Special precautions are not necessary. Exercise safe handling practices at all times.
Storage	Store below 30°C. Zinc and Castor Oil Cream does not present problems with transportation or storage.

8. Exposure Controls; Personal Protection

Exposure Limits:	Not considered hazardous. There are no known Threshold Limit Values (TLV) for Zinc and Castor Oil Cream.
Engineering Controls	Special precautions are not necessary. Ensure adequate ventilation at all times.
Personal Protection	Not necessary.

9. Physical and Chemical Properties

Appearance / Odour:	A smooth white cream, odour bland.
pH:	Not known
Vapour Pressure:	Not known
Vapour Density:	Not known
Boiling Point:	Not known
Freezing/Melting Point:	Not known
Solubility:	Negligible in water @ 20°C
Specific Gravity or Density:	Not known

10. Chemical Stability and Reactivity Information

Conditions Contributing to Instability	No data available.
---	--------------------

11. Toxicological Information

Inhalation:	Non volatile. Not expected to be hazardous.
Ingestion:	May have a laxative effect.
Skin:	Contains Peanut Oil which may cause reactions in susceptible persons.
Eye:	May cause irritation or stinging.

12. Ecological Information

Mobility:	No data available.
Persistence and Degradability:	No data available.
Ecotoxicity:	No data available.

13. Disposal Considerations

Disposal Methods & Containers:	Collect and seal in properly labelled containers for disposal.
Special Disposal for Landfill or Incineration:	Waste material may be incinerated under controlled conditions where permitted. Refer to local Waste Management Authority Regulations for other approved methods.

14. Transport Information

UN Number:	None allocated
UN Proper Shipping Name:	None allocated
DG Class & Subsidiary Risk:	None allocated
Packing Group:	None allocated
Hazchem Code:	None allocated

15. Regulatory Information

Not scheduled using the criteria in the Standard Uniform Schedule for Drugs and Poisons.
